Your Incomparable Source For Experts, Articles, And Challenge History Reports

Searchable Expert Profiles on TASAnet.com

will help streamline your search. Simply enter the type of expert you are looking for in the Keyword Search Box, and a list of relevant experts we refer appears with their experience, location, and TASA contact information. You can then request these experts by phone, email, or on our online request form. TASA advisors may also suggest other relevant experts.

Expert-Written Articles in our Knowledge Center

provide a great way for experts to share their specialties and experience with you directly as they discuss case-pertinent issues in many different fields. When you click on the authors' TASA ID numbers, you will be taken to their expert profiles. Visit www.TASAnet.com/knowledgecenter.aspx to view this growing resource.

A Challenge History Report (CHR) from TASA

gives you valuable insight into an expert's testifying background. The CHR reveals challenges to your expert's or the opposing expert's past testimony, where a state or federal "gatekeeping" standard or rule was cited and/or the expert's qualifications or methods strongly criticized by the court. The CHR compiles *reported and many unreported decisions* and *includes all supporting documents* for one low price. TASA does the search for you, with a downloadable report available in one business day. For more information, or to order, visit www.TASAnet.com/challenge-history-report.aspx.

Free Attorney-Focused Webinars

In 2010, TASA launched an expert-led webinar series for attorneys. These free, informative, interactive programs offer all legal professionals insight on case-relevant topics from top experts.

TASA offers several webinars a month. The subject matter is carefully chosen to benefit both plaintiff and defense attorneys. Some presentations include "Auto Product Liability," "Weight Loss Drugs and Dietary Supplements," "Pedestrian Accident Reconstruction," and "Pitfalls in Construction Contracts."

Not able to join a live event during the workday? Not a problem. TASA records these webinars and places the links to the archived recordings in the TASA.net Knowledge Center the day of the event, available for download at your convenience.

**SPECIAL
OFFER!**

Register now at www.TASAnet.com/knowledgecenterregistration.aspx to join our Premier Webinar Invitation List.

Receive first notice of webinar topics and dates, as well as guaranteed free attendance and downloading privileges for the entire year.

For Any Stage Of Your Case, TASA Directs You To The Experts You Need By...

Providing One-On-One Service

When you contact TASA, a regional referral advisor responds to discuss your expert criteria, offer expertise options, and provide you with the names of screened candidates. We later follow up to see if you require different experts. Our advisors are here to answer your questions and address your concerns throughout every step of the referral process. You will experience ongoing personal service, something you won't receive from an online expert directory.

Offering More Expertise Options

Our proprietary network of independent testifying and consulting experts includes **more than 10,000 diverse expertise categories** within the fields of business, technology, the arts, science, including medicine, and much more. We recruit experts in cutting-edge and hard-to-find specialties, and if we don't have the expertise you request, we'll search outside our system. Our advisors can also provide multiple experts in various disciplines for the same case. These vast resources help us refer experts who could make a difference to your case and client.

Interviewing To Meet Your Needs

We interview expert candidates to inquire about possible conflicts and assess the experience, location, background, and availability you require. Then, we can forward names and resumes, often **within 24 hours of your request**, and help arrange your initial phone interviews with the candidates you select. This saves you valuable time and helps provide experts ready to discuss your case.

Defining And Refining Your Criteria

After pinpointing your needs and discussing them with expert candidates, we may discover that you could require a different kind of expertise than the one first requested. We follow up and refine our search to offer you the specific expertise you need.

If your expert criteria change, or you need someone other than the experts we first refer, please contact us. Your referral advisor can offer additional experts, in the original field you requested, or in different specialties.

Supplying Solutions With These Benefits

- Regional advisors familiar with local & national experts
- Consultation concerning your needs and preferences
- Expert screening interviews by our advisors
- Targeted recommendations to top, credible experts
- Resumes forwarded for your review
- Assistance arranging your initial expert phone interviews
- Follow-up searches for different or additional experts
- Rapid response to your requests
- More than five decades of referral experience

There is NO CHARGE for any of our services unless you designate or engage an expert we refer to you.

Three TASA Group Divisions — Backed by Over Five Decades of Experience

TASA for Technical Experts...and More

The TASA division, Technical Advisory Service for Attorneys, provides superior, independent experts available in *thousands of diverse categories*, (searchable on TASAnet.com), in business, the arts, technology, science—virtually all fields. TASA experts are available for case evaluation, education, testimony, and consultation, locally and nationally, for plaintiff or defense.

TASAméd for Medical Experts

The TASAméd division (www.tasamed.com) has its own specialized advisors who refer esteemed physicians in active practice, as well as other outstanding healthcare experts. TASAméd offers options in *more than 1,000 medical fields*, including Hospital Administration, Neurology, Orthopedics, Pharmaceuticals, and much more. Experts are available for case merit review, IMEs, and testimony, locally and nationally, for plaintiff or defense.

TASconsulting for Insight and Analysis

The TASconsulting division offers a vast, diversified network of outstanding, independent professionals and industry leaders in thousands of categories, available for short- and long-term projects, nationally and globally. TASconsulting's database of profiles and categories (www.tasconsulting.com) helps narrow your search, while our referral specialists connect you with consultants who can increase profitability, improve efficiencies, and offer suggestions and solutions.

CLIENT TESTIMONIALS

“ **The judge ruled on the other side’s motion to exclude the** testimony of the web design expert TASA referred, and the opposition lost it. When they heard the expert would be allowed to testify, they settled the whole case then and there. I have had similar experiences with TASA experts, who are so great that the threat of one of them alone has been added leverage to settle cases. Thanks.”

Philip Green, Green & Green, San Rafael & San Francisco, CA

“ **I needed to retain a multitude of scientists from a variety** of disciplines for a complex litigation. Initially, I went through a series of interviews with an extremely knowledgeable and professional team of TASA advisors. They were able to find highly qualified experts in the specific fields, all of whom turned out to be superior in qualification and area of expertise to my adversary’s experts. I am a TASA believer!”

Nooshin Namazi, Partner, Nicoletti Hornig & Sweeney, New York, NY

“ **TASA always comes through in the difficult IP cases.** Their representatives work with you to refine the search criteria and quickly send you a list of very qualified experts.”

Timothy L. Boller, Principal

Seed Intellectual Property Law Group, PLLC, Seattle, WA

“ **Special thanks to our TASA referral advisor for her quick** response to our initial request — we were extremely happy with how fast TASA was able to assist us! Your group does excellent work, and it is always my first stop when looking for an expert.”

Susanne K. Sullivan, Senior Attorney, Southwest Airlines Co., Dallas, TX
